

## Criss-Cross T

Rowan

### Information

Using a plain closely fitting t shirt place a piece of board between the T, or place over an ironing board with just the back layer on top. Pin a contrasting shade of ric rac to the desired shape on the back of your T. Attach one end of yarn (Cotton Rope) at top right hand corner, then threading from under the ric rac to over, following photograph as a guide. Continue until desired effect is obtained, ending at top left hand corner, fasten off.

Hand or machine sew ric rac in place, then leaving collar intact trim around inner of ric rac leaving a 1.5cm hem to turn back and sew into place.

Beads, buttons or sequins could also be threaded onto the yarn, to achieve a different look
